LIST OF ICT TOOLS

Sr. No.	Name of ICT Tool	Objectives/Purpose of ICT Tool
1	PowerPoint Presentations	PowerPoint presentations are used to create engaging, multimedia-rich slideshows that support the verbal presentation of content. They help in organizing information visually, making complex concepts easier to understand, and providing a structured framework for lectures and seminars.
2	Projectors	Projectors are utilized to project slides, videos, and other visual content onto large screens. This tool facilitates large-group viewing and enhances learning by allowing students to see detailed information clearly during presentations and lectures.
3	Video Clippings	Video clippings are integrated into teaching to provide visual and auditory stimuli that can enhance understanding and retention of information. They are useful for demonstrating concepts, showing real-life examples, and making learning more interactive.
4	Audio Systems	Audio systems amplify the instructor's voice and other sounds during lectures and presentations, ensuring that all students, including those with hearing impairments, can clearly hear and engage with the material being presented.
5	E-resources for Library	E-resources provide access to a wide range of digital materials, including e-books, journals, and databases. They support research and self-study by offering up-to-date information and academic resources that can be accessed anytime, anywhere.
6	Zoom and Google Meet	Zoom and Google Meet are platforms for conducting online classes, meetings, and discussions. They enable real-time interaction between students and instructors, facilitate virtual learning environments, and support remote education by allowing access to classes from different locations.

7	ICT-Enabled Display	ICT-enabled displays are interactive screens used for displaying and interacting with educational content. They enhance teaching by allowing for dynamic presentations, interactive lessons, and the use of various multimedia resources in real-time.
8	Seminar Hall and Conference Room	These facilities are equipped with modern ICT tools to host seminars, workshops, and conferences. They provide a professional environment for academic and professional gatherings, allowing for effective presentation and communication among participants.
9	Specialized Computer Lab	The computer lab, equipped with computers and high-speed internet, provides a dedicated space for students to conduct research, complete assignments, and access online resources. It supports both individual and collaborative work, enhancing the learning experience.
10	Internet Access	Reliable internet access is crucial for enabling students and staff to use online resources, participate in virtual classes, conduct research, and access educational tools and platforms. It ensures connectivity and access to information for effective learning.
